Mills and Yards at Rice Lake, East Brainerd.

We have constantly on hand a complete stock of Lumber, Lath Shingles and Building Material. Short Lumber of all grades, and Low Grade of Dimension and boards at very low prices for Cash.

Dorothea's Stolen Cheese.

Little Dorothea is one of those children whose silence when awake is regarded as a certain sign that she is in mischief. One day when she was about two and a half years old her mother gradually became aware of a silence which boded trouble. She was about to look for the baby when Dorothea came in, her rosy lips still bearing the traces of a feast.

"Where have you been, Dorothea? What are you eating?"

"Cheese," said Miss Dorothea.

"Where did you get it, dear?" asked her mother.

"In the moustrap," answered the delinquent.

"In the moustrap?" exclaimed the horrified mother.

"Yes."

Then the mother laughed. "But what will the poor mousies do? You will frighten them all away."

"They wasn't a bit frightened, mamma. Dey was two mousies in de trap when I eated the cheese."—Brooklyn Life.

The Fishes of Japan.

The islands of Japan are remarkable for their richness of animal life. The variety in climatic and other conditions, the nearness to the great continent of Asia and to the chief center of marine life, the East Indian islands; its relation to the warm black current of Kuro Shivo (the gulf stream of the orient) and to the cold current from Bering sea, all tend to give variety to the fauna of its seas. Especially numerous and varied are the fishes of Japan. It has been noted that the fish fauna of Japan bears a striking resemblance to that of the Mediterranean, and Dr. Gunther has suggested that this can be accounted for by supposing that in recent times a continuous coast line and sea passage extended from one region to the other, the isthmus of Suez not existing.—Popular Science Monthly.

Perfect Bliss.

Gladys—How did you enjoy Mrs. Uperton's reception?

Ethel—Oh, great! It was the most complete failure I ever saw!—Puck.

Claddagh Rings.

The old "poesy rings" are a much sweeter souvenir than more modern ones. A friend has one which had belonged to her great-grandmother, such a narrow gold circlet. The motto, engraved inside in old lettering, was as follows: "God above increase our love." The "Claddagh" rings of Ireland are now very difficult to procure—that is, the genuine specimens, of course. There are many imitations. These rings were heirlooms with the people of the Claddagh, a distinct gypsy-like race of fishermen, and were handed down from mother to daughter as a wedding ring, a marriage being scarcely considered legal if an ordinary ring were substituted. They were made of massive gold, decorated with a heart, bearing a crown supported by two clasped hands, signifying loyalty, love, friendship.

The Unattained.

The quickest way to make any man weary of his life is to give him all his heart's desire. The struggle for the unattained is the secret of joy. Here is a man who has been giving his years to a reckless round of pleasure. Now you see him waking up to find that the deepest needs of his soul are still untouched. Or there is another man who has given twenty-five years to the accumulation of knowledge, and at last we see him, like Dr. Casaubon in "Middlemarch," dying with the stores of knowledge all around him, which he does not know how to use.

Didn't Care to Try.

A woman in a railroad station the other day had a great deal of trouble with one of her children, a boy of seven or eight, and a man who sat near her stood it as long as possible and then observed:

"Madam, that boy of yours needs the strong hand of a father."

"Yes, I know it," she replied, "but he can't help it. His father died when he was six years of age, and I've done my best to get another and failed. He can't have what I can't get. Would you care to try yourself?"

The listener had fled.

BY THE PANAMA ROUTE

SENATE ADOPTS SPOONER'S SUBSTITUTE FOR THE HEPBURN CANAL BILL.

IS PASSED AS AMENDED

The Measure Then Goes Through by Fifty Majority—Authorizes the President to Build the Shorter Canal if a Clear Title Can Be Obtained—Otherwise the Nicaragua Route Shall Be Adopted.

Washington, June 20.—An isthmian canal, while not yet absolutely assured, is nearer to construction than it ever has been. The senate, by a majority of 8 votes, adopted the Spooner substitute for the Hepburn Nicaragua canal bill, the vote on the substitute being 42 to 34. After two amendments to the measure had been adopted, one providing for a commission to supervise the construction of the canal, and the other providing for the issuance of \$130,000,000 of 2 per cent gold bonds to raise money with which to construct the waterway, it was passed by a vote of 57 to 6.

It has been evident for several days that the Spooner substitute, which in brief provides that the president shall not select the Nicaragua route if he can obtain a clear title to the Panama Canal company's property, but, otherwise, he shall adopt the Nicaraguan route, would command the votes of a majority of the senate. The Panama route was considered more desirable by the senate than the Nicaraguan route. The only question left open is the title to the property, and that the president will determine if the house should adopt the senate's amendment to its bill.

Mr. Morgan of Alabama closed the debate with an earnest appeal for the adoption of the Nicaraguan route. He had been preceded by Mr. Clark of Montana in support of the Nicaraguan route and Mr. Allison of Iowa in support of the Spooner proposition. Only minor amendments, except those indicated, were adopted, all others being voted down.

The Spooner amendment, as amended and adopted by the senate, provides that the president, through the law officers of the government, shall determine whether a clear title can be obtained to the Panama Canal company's property, rights and concessions. If he shall be satisfied that such title can be obtained he shall purchase the property, rights and concessions for \$40,000,000. If in his opinion, a clear title cannot be obtained he shall proceed to construct an isthmian canal by the Nicaragua route.

The bill further provides that a commission of seven shall be appointed by the president to supervise the work and to make arrangements for all the details of it. It also provides that gold bonds in the sum of \$130,000,000, bearing 2 per cent interest, shall be issued to raise money with which to construct the canal.

The senate had some debate over the trouble into which it has gotten with the house over amendments to the army appropriation bill and finally asked for a conference with the house, ignoring the "offensive" message which caused the trouble.

THE PHILIPPINE DEBATE.

Cooper of Wisconsin and Jones of Virginia Fire the First Guns.

Washington, June 20.—The opening day of the week's debate on the Philippine government bill in the house was signalized by a remarkably strong and exhaustive speech by Mr. Cooper (Wis.), chairman of the committee on insular affairs. He spoke for almost three hours and was given close attention by both sides of the house. Much of the speech was a general defense of the policy pursued by the administration and drew repeated applause from his side of the house. He contended that the problem of the Philippines should not be a party question, that both political parties brought on the war with Spain, and the votes of members of both parties ratified the treaty which made the islands American territory. The most telling portion of his speech was the parallel drawn between the present attitude of the opposition and the attitude of the opposition during and immediately succeeding the Civil war.

Mr. Jones (Va.), the ranking member of the minority of the committee, made an able presentation of the Democratic position, but he yielded the floor after speaking about an hour and will resume in the morning. Those were the only speeches made during the day.

BRAZIL OBJECTS.

Bolivia Notified to Rescind Lease of Territory to Anglo-Americans.

Washington, June 20.—It has become officially known here that the Brazilian government has conveyed to the government of Bolivia a notification that if the contract for the lease of the territory in the Acre region to an Anglo-American syndicate is not rescinded diplomatic relations will be immediately suspended and every obstacle will be placed in the way of developing the territory through the affluents of the Amazon running into Brazil. According to information conveyed at the same time a filibuster movement is on foot in the state of Amazon, Brazil, with a view to the invasion of Acre, the territory said to have been turned over by Bolivia to the syndicate, and the organization of a revolution in that locality.

Violent Earthquakes in Tyrol.

London, June 20.—Telegraphing from Vienna, the correspondent of the Daily Express says violent earthquakes, accompanied by rumblings, have occurred throughout the Tyrol. Crockery and pictures were thrown down and the people became panic-stricken.

WHEATON'S LAST REPORT.

A Strong Endorsement of the Reconcentration Policy.

Washington, June 20.—Adjutant General Corbin has made public the last report of Major General Wheaton, commanding the department of North Philippines, prior to that officer's return to the United States for retirement. It is a long and elaborate explanation of military operations in pacifying the disaffected element in Northern Luzon, including Batangas, Laguna and Tabayas. General Wheaton gives a strong endorsement of the policy of reconcentration adopted by General Bell.

"I authorized," says General Wheaton, "the policy and fully approved of the methods by which the insurrection in the provinces of Batangas, Laguna and Tabayas was ended. The humane code of the laws of war, as published during the administration of President Lincoln, was followed in all operations against semi-civilized insurgents, who habitually violated every law of war known to civilization, and who treated their own people with every barbarity that can be inflicted upon the helpless. At this time insurrection has ceased in Luzon and adjacent islands. There is no brigandage or disorder reported in all the islands north of Manila. A few small bands of ladrones are in the mountains of Southern Tabayas and there is brigandage in Cavite province, which, the civil authorities state, can be coped with by the constabulary. There is now little to prevent continued peaceful conditions throughout the territorial limits of the department, provided a firm and thorough policy of bringing assassins and disturbers of order to justice is followed. My service in these islands soon terminating, I wish now to express my highest appreciation of the gallant conduct, the courage and humanity of the troops it has been my honor and good fortune to command. The officers deserve gratitude of their countrymen and the men the gratitude and love of every patriotic American."

FAVORS POSTAL CHECKS.

Postmaster General Payne Sends a Letter to Congress.

Washington, June 20.—Postmaster General Payne takes a strong position in favor of the establishment of a postal currency in a letter he sent to congress transmitting the reports of the committee appointed to consider pending bills providing for a post check system. He enclosed with his letter a measure drawn by the majority of the committee for enactment by congress, which he believes will meet the end in view. In his letter the postmaster general says: "There is great need of some form of postal currency and that the one proposed is very simple and would prove of incalculable convenience to the public."

The postmaster general adds: "Hundreds of thousands of letters carrying small amounts in the form of ordinary currency or silver or postage stamps are transmitted every year through the mails. These letters are a constant temptation to those handling them, as it is easy to identify letters enclosing currency. The postal checks provided for in the proposed bill would be much more easily obtained and cheaper than the present money order, and with the extension of the rural free delivery service to the remote parts of the country would go far to provide a cheap, convenient and safe method to transmit small amounts through the mails, and would be available in those sections not heretofore covered by or adjacent to the money order offices or banks of the country."

IS NOT NECESSARY.

Minority Report on Bill to Inquire Into Status of Negro Race.

Washington, June 20.—The Democratic members of the house committee on labor have filed a minority report on the bill creating a commission to inquire into the status of the negro race. The minority say that there does not seem to be the slightest necessity for the creation of this commission, nor for considering the status of the negro race apart from other races. "The negro race can never reach its full development," says the report, "until it is permitted by the government to work out its destiny as do the other races with which it comes in contact."

The report further asserts that the real object of the inquiry is covertly to secure the investigation proposed by the Crumpacker resolution. Such inquiries, it is said, are not of advantage to the great bulk of the negroes and benefit only those who make merchandise of their politics. It is urged also that the progress of the mass of the negroes in the South is dependent on co-operation and good will of the whites among whom they live.

Let Them Romp.

It is a good thing to remember when the children are noisy that some day they will all be married and living far away, and the house will be as quiet as a tomb.—Atchison Globe.

PRESIDENT FIRM IN HIS DETERMINATION TO REDEEM CUBAN PLEDGES.

EITHER BILL OR TREATY

If Congress Cannot Be Prevailed Upon to Act the Chief Executive May Exercise His Constitutional Power.

Conference of Senators Favorable to Reciprocity Is Held at the White House.

Washington, June 20.—The president gave a dinner to about a dozen leading senators favorable to Cuban reciprocity and discussed with them the ways and means of securing a reduction of the duty on Cuban products in order that the pledges made to Cuba may be redeemed. Among those at the dinner were Senators Allison, Aldrich, Hale, Spooner, Lodge and Platt. Secretary Root also was one of the guests.

The president, it can be stated, is firm and steadfast in his determination that in some form or other and at the earliest opportunity there shall be secured to the new republic of Cuba a substantial reduction of the impost tariff on her exports to the United States, so that her people may feel this country has kept every promise made them and has done all that could be fairly expected to assure permanence and prosperity to their newly established government. How or when the result will be obtained is a matter that the president must leave to future developments, but it can be stated by authority that the administration will continue unremittingly its endeavors until it accomplishes Cuban reciprocity in some form. It has not yet been definitely decided whether this can be brought about better and earlier by a bill or by a treaty, nor whether good judgment and sound policy require that the matter go over for a time. The methods and opportunities were canvassed carefully. The president will not content himself with shelving the question now that he has urged the matter on congress in a special message, but will take such further steps as may be calculated to secure the reduction he has urged, whether there will be an extra session or not, and, if so, when it shall be convened, is altogether problematical. For the present efforts will be continued to secure co-operation in legislation at this session on the part of the nineteen Republican senators who oppose reciprocity with Cuba. If it appears that a treaty will accomplish results one will be negotiated and submitted to the senate whenever the occasion seems opportune. The president will not await authority from congress to frame such a document. The treaty making power is vested in him and a decision has been reached to exercise the power should that appear the best method of obtaining favored trade relations with Cuba.

CHIPPEWA LAND BILL.

Congressman Morris' Measure Is Passed by the House.

Washington, June 20.—Judge Page Morris carried his Chippewa Indian reservation bill through the house during the afternoon with flying colors. By a vote of 92 to 12 the sealed bid proposition was retained.

The passage of the bill means a big boom for Northern Minnesota. Under its provisions millions of feet of pine are to be sold to the highest bidder, under rules prescribed by the secretary of the interior.

French Defeat Tribesmen.

Paris, June 20.—The Patrie prints mail advices from the Lake Tchad district of Africa which announce that a French column commanded by Colonel Destenave inflicted a crushing defeat on the Touaregs and Senoussin tribesmen Jan. 20. The French Sudanese troops carried the tribesmen's position at Bir Alali by assault and the enemy left 1,390 dead in the trenches and abandoned their families and 900 repeating rifles.

Taft's Plans Not Definitely Accepted.

Rome, June 20.—The pope has not definitely accepted the propositions of Governor Taft for the settlement of the questions regarding the friars lands in the Philippine islands, but it is confidently believed that the pontiff will do so in writing soon.

D. M. Clark & Co., carry a nice line of sectional Book Cases.

The pine on 250,000 acres is to be sold on bank scale at not less than \$4 per thousand for Norway pine and \$5 for white pine.

Five per cent of the pine is to be left standing, and the department of agriculture, through the forestry division, is to reforest these lands. This will please the Women's federation and all interested in forestry.

In addition the islands in Cass lake, also Sugar Loaf island and Pine Point, are to be set apart as a permanent forest reserve under the forestry division, embodying about 10,000 acres.

After the agricultural lands shall have been classified they are to be opened to homestead entry under proclamation and under such rules and regulations as the department prescribes. It will be next October before the lands are properly classified and surveyed.

IMPORTANT DECISION.

Wisconsin Law Regarding Labor Unions Declared Void.

Madison, Wis., June 20.—The supreme court declares that the state law which prohibits any employer from discharging an employee because he belongs to a labor organization is contrary to the employers' constitutional rights and therefore void. The court recognizes the right of men to combine in labor organizations. If an employer's liberty were curtailed by legislation, however, that of an employee could be likewise curtailed. Thus an employee might be punished for quitting work because his employer had formed a blacklist organization, or any other objectionable combination.

The decision of the supreme court is a most important one. It is vital to labor and capital alike and will undoubtedly attract widespread attention.

Statehood Bill to Go Over.

Washington, June 20.—Senator Quay said in the senate that probably he would not press his motion to discharge the committee on territories from further consideration of the omnibus statehood bill when it comes up next Monday. The Republican leaders have agreed that the question shall go over until the next session of congress with the definite understanding that the bill shall be reported early in the session and taken up in the senate in time to allow fair consideration of it.

PAUNCEFOTE'S REMAINS.

Will Start on Their Journey to London From Annapolis.

Washington, June 20.—It has been decided that there will be no ceremonies at Washington in connection with removal of the remains of the late Lord Pouncefote, all of the observances being confined to Annapolis. The remains will leave Washington on a special train July 1 for Annapolis, where the cadets and a number of marine detachments stationed there will salute the casket as it is taken aboard the Brooklyn, and a salute of minute guns will be fired on shore as the big cruiser sails down Chesapeake bay.

Weather.

Fair tonight and Saturday. Frost tonight.

LOCAL NEWS NOTES.

A. T. Kimball, of Pelican, is in the city.

I. Black, the traveling man, is in the city.

A. L. Cole came down from the north this morning.

Oscar Olson left for Aitkin this afternoon on business.

J. L. Smith, of Minneapolis, is in the city on business.

W. T. Orcutt is in the city this afternoon on business.

The Twentieth Century Club will give a dance this evening.

Frank Berry, of Wadena, came in from the north this morning.

Mrs. Closterman returned to her home in Staples this afternoon.

Dr. Courtney has returned from a business trip to the Twin Cities.

Geo. A. Keene made a flying trip to Pillager yesterday on business.

Mrs. Dinan left for the Twin Cities this afternoon for a few days visit.

J. W. Willis returned from a business trip to Minneapolis this morning.

R. M. White, of Duluth, was in the city today, leaving this afternoon for home.

ON THE DIAMOND.

The greatest attraction of the season in the base ball line is booked for Saturday afternoon, June 28th, when the Brainerd city officials will play the Brainerd lawyers. It will be remembered that the doctors and lawyers met last year, the lawyers winning by one score. The city officials claim they can't do it again and are prepared to fight them to a Mozambique finish this year for the honor. The lawyers say the officials will have to produce material of a superior quality if they do it, and everything is set for one of the richest games what is.

The line-up of the two teams will be announced later. The object of the game is to raise money for the public library and the entire net proceeds will be turned over to the library fund. Tickets will be placed on sale early next week. Get them early or they won't go round.

Can't be perfect health without pure blood. Burdock Blood Bitters makes pure blood. Tones and vigorates the whole system.

Campbell Bros. Shows.

The following is what the Phillipsburg, Kan., Dispatch has to say of the great Campbell Bros. shows:

"Campbell Bros. great circus and menagerie will be in the city on Wednesday, April 30, and the small boys are correspondingly happy. Nine years ago this summer a few scattering bills about town announced the coming of Campbell Bros. circus and at the appointed time two or three wagons, with a black bear and a common coyote as their collection of animals came into town. They had a small tent which they succeeded in getting up before night and gave the very best performance possible. There were not many of them, but several of the acrobats they had with them were fairly good performers. They treated everybody right and left with the respect and best wishes of all. The next year they returned and their show was more than double the size it was the year before. This time they had added a ring and had an old horse or two that gave it more the appearance of a circus than the year before, when they had not even a ring. On this occasion as before, they gave a good clean show and everybody was satisfied that they had done their very best. In Brainerd July 2."

Only one remedy in the world that will at once stop itchiness of the skin in any part of the body; Doan's Ointment. At any drug store 50cts.

For Baby Carriages and Go-carts see D. M. Clark & Co.

Bids Wanted.

Sealed bids will be received by the undersigned until Tuesday, June 24, at 6 p. m., for the carpenter work and finishing of the Swedish Baptist church, corner 10th and Oak streets. Plans and specifications made known on application. The right to reject any and all bids is reserved.

13 t6 Rev. A. A. ANDERSON.

Saved from an Awful Fate.

"Everybody said I had Consumption," writes Mrs. A. M. Shields, of Chambersburg, Pa., "I was so low after six months of severe sickness, caused by hay fever and asthma, that few thought I could get well, but I learned of the marvelous merit of Dr. King's New Discovery for consumption, used it, and was completely cured." For desperate throat and lung diseases it is the safest cure in the world, and is infallible for coughs, colds and bronchial affections. Guaranteed bottles 50c and \$1.00. Trial bottles free at McFadden Drug Co., and H. P. Dunn & Co.

ARE NOT UNANIMOUS.

Many Soft Coal Miners in the West Opposed to a Strike.

Wilkesbarre, Pa., June 20.—Information has reached here through different sources that the soft coal miners in the West are not unanimous for a general strike, and some of them, it is said, are against a partial suspension. Those men who oppose a strike are willing to give financial aid to the anthracite strikers, but some of the leaders are not ready to accept this sort of aid. In the spring of 1900, when a strike levy of 25 cents a month for each member of the United Mine Workers of America was made, there were only three state organizations that responded in full; they were Iowa, Illinois and Indiana. There is now a strike tax of 10 cents a month for each member in force, but as far as can be learned this is not being paid in full by all the districts in the country. For this reason the leaders would rather have the bituminous miners either strike or partially suspend operations. President Mitchell has been in close communication with the leaders of the various districts and whatever plan they decide upon will no doubt be adopted by the convention. No radical action, such as a total suspension of work by the entire membership of the organization, is looked for.

There were no developments in the anthracite strike. The canvass to bring out all the engineers, firemen and pump runners who have failed to respond to the strike order goes steadily on. Additional men are persuaded each day to quit, but the coal companies say they always have men on hand to fill their places.

President Mitchell received information from West Virginia, which, he says, indicates that the strike there is progressing most favorably. He said more men are now out in that territory than at any time since the strike in the Virginias began. Large gains have been made, he said, along the line of the Norfolk and Western railroad.

SCHOFIELD IS WILLING.

Would Accept Republican Nomination for Governor of Wisconsin.

Duluth, June 20.—Former Governor Edward S. Schofield, who is in Superior, has authorized the announcement that he will accept the Republican nomination for governor at Madison, July 16, if the party wishes him for its candidate. He said:

"I am a Republican because I believe the party has a great mission to perform. To assist in maintaining its integrity and dominance should be both a duty and a pleasure, and no personal desire should stand in the way of the performance of that duty. In common with many other Republicans, I believe that the integrity of the party in Wisconsin is threatened and that something should be done to prevent its disruption. If the state convention considers that the best interests of the party would be served and harmony restored by placing my name at the head of the ticket I will accept the nomination. At the same time I should prefer that some one else be selected."

FOUR MEN KILLED.

Terrific Explosion in a Powder Mill at Seward, Pa.

Johnstown, Pa., June 20.—The coaling mill of the Cahmria Powder company plant at Seward, nineteen miles from Johnstown, blew up during the afternoon, killing four men and injuring five others. Two others are fatally hurt. The dead are: J. B. Smith, John Rhodes and W. F. Bracken of Seward and Charles Drover of Wapwallopen.

The men were loading a pot of powder driven by Rhodes when suddenly there was an explosion and the flames flew in every direction. The powder adhering to the clothing of the men ignited, burning into the flesh of the victims. A strange feature of the accident was the fact that Drover was able to walk 400 yards from the scene of the explosion before he fell dead from his terrible burns. His flesh, like that of the other victims, was burned to a crisp. The shanty in which the coaling mill is located was ignited by the explosion of the powder and was burned to the ground, but the financial loss is slight.

A GREWSOME FIND.

Body of a Dead Woman Placed in a Sleeping Car Berth.

Escanaba, Mich., June 20.—During the morning the trainmen on the train which left here at 9 p. m. had a grewsome find. The dead body of Bess Mathewson of the Soo was placed in a berth in the sleeping car before the train left here. The girl came from Sault Ste. Marie on her way to Chicago to be treated for consumption. A traveling man who knew her was taking her from the Soo line to the Northwestern depot here on a street car. The girl grew worse and as he was carrying her to the coach she died in his arms. Not having time to attend to the arrangements the man simply carried her into the train, put her in a berth and left her.

KILLED AT A WEDDING.

Philip Bushman of Waseca, Minn., Is Beaten to Death.

Waseca, Minn., June 20.—As a result of a row at a wedding feast at the home of Charles Kuyath in the township of Wilton, five miles south of here, Philip Bushman was found lying murdered in the barn on the premises and his companion, Mike Mulcahey, is under a doctor's care, suffering from a scalp wound that necessitated seventeen stitches, and is bruised from head to foot. Bushman's head was beaten into an unrecognizable mass. The row started from some insulting remark made concerning the bride.

Give J. F. Hawkins market and grocery a call when in need of goods. A full line of staple and fancy groceries just added. 13-1f

Mothers lose their dread for "that terrible second summer" when they have Dr. Fowler's Extract of Wild Strawberry in the house. Nature's specific for the bowel complaints of every sort.

WOULD RESTRAIN

MAYOR AND CITY

Judge McClenahan Yesterday Issued an Order Restraining City from Interfering.

IN THE J. F. MCGINNIS MATTER.

Copy of Order Issued Served on Mayor Halsted and City Attorney Crowell.

A restraining order has been issued by Judge McClenahan in the J. F. McGinnis matter and some more fun is expected as an outcome, although it would seem that Mr. McGinnis now has the bulge on the city in the matter.

The order restrains Mayor Halsted from tearing down or in any way interfering with the building in question located on Seventh street. There is a specific provisions in the order that restrains the city from interfering in any way with the workmen on the building so that it seems now the matter has been taken out of the reach of the city authorities. In all probability the injunction will be answered but it is more than likely that the matter will not come up for hearing before the July term of court and now there is nothing for the city to do but sit still and watch the building while it is being repaired.

DISTRESSING WRECK ON NORTHERN PACIFIC

No's 7 and 8 Passenger Trains Collide at Dower Lake West of Staples This Morning.

Several Trainmen Are Instantly Killed and a Number are Seriously Injured.

Engineer Scott and Conductor Noble, Well Known Here, Among the Dead.

One of the Worst Wrecks on Record on the Minnesota Division in Years.

THE DEAD

J. H. Noble, conductor.
R. Rassmussen, fireman.
Walter Scott, engineer.
Two Unknown.

THE INJURED

Earnest Schultz, engineer, leg broken and skull fractured.
W. Dellemore, brakeman, legs injured and scalp wounds.
F. F. McBride, postoffice clerk, hip fractured.
W. L. Heibach, passenger, back injured.
C. P. Black, passenger, arm broke.
Harvey Zimmer, internal injuries, will die.
Wyman Montgomery, leg broken.

One of the worst wrecks in the history of the Minnesota division of the Northern Pacific occurred at the early hour of 2 o'clock this morning at Dower lake, three miles west of Staples, resulting in the death of several people and the injury of from fifteen to twenty, some seriously, when passengers No. 7 and 8 on the main line collided.

The news of the awful calamity reached Brainerd when H. C. Miller, a prominent business man of Staples accompanied four of the injured men to the Northern Pacific hospital in this city on No. 14. He told in graphic detail the particulars of the unfortunate affair. It seems that No. 8 had left Staples for the west on time and as is usually the custom pulled in on the sidetrack at Dower lake, No. 7 coming from the west having the right of way. Engineer Scott, one of the men killed in the wreck, was seated in his cab on No. 7 when the wreck occurred. His fireman, Myman Montgomery, stepped from the cab for a moment to see if No. 8 was coming, and had no more than stepped to the side when the engine of that train smashed into theirs. Montgomery was thrown several feet in the air and his leg was broken just below the hip and he was otherwise badly injured. He was one of those brought to the N. P. Sanitarium in this city, and he states from the time he first caught sight of the engine of No. 8 he did not see Scott.

One of the queer things about the affair was that Engineer Ernest Schultz was not killed. He was on No. 8 and his engine is a total wreck. His fireman, Reddy Rasmussen, was instantly killed.

"Reddy" Rasmussen, fireman on No. 8 was killed, but Engineer Schultz, of the same engine escaped death, but was badly injured. Schultz is well known in this city having lived here for sometime.

John Noble, the conductor on No. 8, was killed. He is well known in this city having at one time had the run from here to Morris. There is not much doubt but that he was seated in the baggage car when the accident occurred.

The body of Walter Scott was not found in the debris after the accident occurred and it was thought that he was probably burned to a crisp. He is a son of Mr. and Mrs. Chas. Scott of this city and was very well known here.

There were two unknown men who were killed in the wreck.

The dead were all removed from Dower Lake to Staples, to the undertaking rooms of H. C. Miller.

beside the dilapidated engine lifeless when they found him.

The remains of Engineer Walter Scott were not taken from the debris until just before noon to-day. He was beneath his engine and as soon as day began to dawn his lifeless form could be seen there, but he could not be taken out. He was badly scalded and bruised about the head.

Nearly every one who has arrived from Staples has a different story to tell as to the cause of the switch being opened. Some railroad men claim that the story about a freight passing the same switch a few moments before is not so. Another story gained rumor about the city that after the wreck the switch was examined and it was found to be all right and locked as though nothing had happened. This is too horrible to believe, but the story was told by a prominent railroad official.

The two trains were packed, both carrying larger loads than at any time during the season, but only one passenger was killed. There were any number of slight bruises but they did not amount to anything.

THE RESERVATION OPENING.

Some Residents in Brainerd are Elated over the Passage of the Morris Bill.

The passage of the Morris bill which provides for the opening of the Chippewa Indian reservation is good news to many Brainerd people who have belongings in that country that will be greatly increased in value.

From the following it would indicate that the friends of the bill had a foe worthy of his steel in Congressman Fletcher, of Minneapolis:

"The friends of the Morris Chippewa Indian bill were able to bring that measure before the house today ahead of the consideration of the Philippine bill, and it was passed without division. The house has made a few immaterial amendments to the bill as it passed the senate, but these will be concurred in by that body,

A DEFINITE CONTRACT.

Every contract made by the Guaranty Savings and Loan Association represented by P. B. Nettleton, with its borrowers and those who secure homes through its aid, fixes the amount to be paid in full settlement of the debt, as definitely as the ordinary note given to any bank for a loan. The following letter from the State Bank Examiner was written in reply to an inquiry on this subject, his letter is dated St. Paul, May 14th, 1902. He says:

"As the association comes under a very strict supervision by this department, I am, as you suggest, familiar with its plans of operation, and can assure you that its contracts with borrowers are absolute and definite, both as to the amount of the monthly payments and the number of payments required to pay off a loan, and borrowers know exactly what they must pay to liquidate their debts in full, including interest. The plan of this institution is entirely different from the plans upon which the Building & Loan Associations of a few years ago operated. I believe the loaning plan of this company is a very commendable one, and well adjusted to the requirements of the average borrower. Its advantages are manifest, and I have failed to discover any objectionable feature. The law under which the company operates specifically authorizes it to make definite contracts with borrowers, and, so far as I have been able to observe, the disposition of the management has always been, and is, to merit the confidence of its patrons and build up its business on a sound, substantial basis."

Yours truly, S. T. JOHNSON.
Public Examiner and Superintendent of Banks.

to the Northern Pacific Sanitarium.

There were several passengers for Brainerd on No. 8 and the stories told vary as to the details of the mishap. J. W. Willis gave out about the most authentic information. He and Mr. Elder reached Staples on No. 7 and he was to meet his son and daughter who were returning from the west. When informed of the wreck he went out to Dower lake. He states that he spent most of the time in trying to locate his son and daughter and did not notice the wreck so much. The engines were both badly riddled but they were not overturned. Neither were any of the cars telescoped. The cars laid in a zig zag position along the track most of the front cars being badly demolished. Great excitement prevailed and on account of the smoke from the burning embers of the cars that had caught fire and the escaping steam it was hard to see where to do the most good. Of course the attention of those who came out uninjured was immediately turned to those who were injured. One of the first men to be picked up was Conductor John Noble. He was killed instantly. It is said that he had just stepped out on the platform and was in the act of looking down the track to see if it was clear when the crash came. He was between the baggage car and the smoker and the ends of the two cars came together with such a violent force that his life was crushed out in an instant. Mr. Noble is a son-in-law of Mr. and Mrs. John Penderghast of this city, and they left this afternoon for Staples.

The attention of the rescuers was then turned to the men on the engines. Earnest Schultz, the engineer on No. 8, was thought to be dead when he was picked up and laid on a stretcher, but life was still present and he revived with the use of stimulants and was brought to this city later. "Reddy" Rasmussen, his fireman, is thought to have been killed instantly, as he was laying

on motion of Senator Quarles, as soon as the bill is sent back from the house.

"It has been a sad, sad night and day for Mr. Fletcher of Minneapolis, who was anxious to incorporate in the bill, in the interest of his lumber constituents, a provision for the public auction of timber, failing which he wanted the bill defeated. Last night he ran into the buzz saw of Representative Sherman, of New York, a skilled parliamentarian, the chairman of the house Indian committee and a man who is friendly to the Morris bill and especially to that section of it providing for sealed bids.

"Mr. Fletcher had his case well in hand and things looked blue for the bill when Mr. Sherman, just as Mr. Fletcher was making the point of 'no quorum' against the bill, which would have killed it, slipped in with a motion to have the 'previous question' ordered. This was carried before Mr. Fletcher knew what was going on, and it destroyed any parliamentary advantage he may previously have had."

NEW \$5,000 HOME

FOR DR. COURTNEY

Northern Pacific Beneficial Association will Build a Home Near The Sanitarium.

STILL MORE ROOMS NEEDED.

The Doctor's Present Quarters Will be Utilized for Hospital Purposes Soon.

The Northern Pacific Beneficial Association has decided by a vote of the directors to build a new home for Dr. Courtney on the hospital grounds somewhere.

It has been thought advisable to make this change for sometime on account of the cramped room in the hospital. The directors have decided to put up a thoroughly modern home for the doctor, and it will cost about \$5,000. The departments now occupied by Dr. Courtney and wife will be utilized for hospital purposes.

At J. F. Hawkins market and grocery you will find fresh goods, the best the market affords. 13-14

MUSIC AND DRAMA.

PALOMA THE GREAT PIANIST.

Paloma Schram, the child wonder on the piano, will be at the Brainerd Opera house next Tuesday evening. Of her performance at Winnipeg the Free Press says:

"Two children, one 11, the other 9, gave a piano recital over in the Y. M. C. A. auditorium last night, to a gathering that was both delighted and astonished.

"The local concert hall has never before witnessed such a scene of spontaneous enthusiasm, and this morning 300 or more amazed and admiring students and music lovers will be telling doubting friends who were absent that their scepticism cost them one of the most remarkable treats of the season.

"Were it not for the corroborative testimony of these 300 witnesses, it might be indiscrete to indulge in superlatives to a public which has regarded 'infant prodigies' with feelings akin to suspicion.

"But with such confirming evidence there need be no hesitancy in writing that these children are wonderful—that Paloma, the elder, is an artist of

PALOMA SCHRAM.

individuality and positive genius.

"You can, no doubt, imagine a child of such tender years mechanically playing at the classics of Liszt, Chopin, Schubert, Arams, Mendelssohn and other of the masters, but you are asked to believe that this gifted girl interprets these sublime works with the understanding, the temperament and the finish of mature and famous pianoforte performers.

"It is not possible to exaggerate her qualifications as a technician, the firmness or the delicacy of her touch, or the intelligence manifested in her ripened conceptions."

Seats on sale tomorrow morning at H. P. Dunn & Co's drug store.

Having added a full line of staple groceries, canned goods, etc., to our market we ask an inspection and trial. Everything new and fresh. Give us a call.

Cancer and Consumption Cured In Duluth.

These diseases cured by the Actinic or Violet Ray Light cure that has been used with great success in Europe and New York City. In the latter place hundreds are being treated daily by this wonderful light. Absolute cures are being effected and all who try it are benefited. The treatment consists in powerful rays of light from a 500 candle power lamp which are passed through condensing lenses and thrown on the affected parts. These rays of light destroy the germs of disease without injury to the healthy tissue. It quickly relieves the pains of cancer, the severe coughing in consumption and heals all running sores. It is absolutely painless. Already a number of Duluth and Superior people have been treated with astonishing results.

TROOPS ORDERED OUT

PATERSON, N. J., SENDS AN AP-
PEAL TO GOVERNOR
MURPHY.

MAYOR IS FORCED TO ACT

Mill Owners Demand Protection,
Claiming That the Police Force Is
Inadequate to Cope With the Mob.
Employees Working in Momentary
Fear of Attack—Both Infantry and
Cavalry Will Be Sent to Preserve
Order.

Newark, N. J., June 20.—Governor
Murphy has ordered a part of the First
regiment of infantry and the entire
first troop of cavalry to Paterson to
preserve order. General Campbell,
commanding the first brigade, has
taken command and is assembling the
troops and arranging for transportation.
The Erie railroad has been or-
dered to send trains here at once. The
members of both commands are as-
sembling.

A delegation representing the mill
owners called on the mayor of Pater-
son and demanded protection. The
mayor replied that he was affording it.
To this it was replied that the
force was too small and would be
overridden by a mob of any size; that
it was impossible to concentrate any
great number of men at any point and
that a large portion of the deputy sher-
iffs were green hands and unreliable.
It was pointed out that the mill hands
were afraid to work and that those
who worked were in momentary fear
of attack. This resulted in an appeal
to the governor, who was in Newark,
for troops, and the consequent action
of General Campbell.

QUIET AT PATERSON.

Rioting of Striking Silk Dyers Has
Not Been Resumed.

Paterson, N. J., June 20.—In the
main this was a quiet day in this city.
The most important event was the
suspension from duty of Chief of Pol-
ice Fred C. Gaul by Mayor Hinch-
cliffe and the assumption by the mayor
of the duties of that position. Will-
iam McQueen, the Englishman who
was prominent at the meeting before
the rioting began, has left the city
and is believed to be in New York.
Galleano, the Italian, and Crossman,
the German, who are said to have been
prominent have also kept from public
notice. Mayor Hinchcliffe wishes to
interview all these men. Lacking a
leader among keeping out of the heavy
rain of the early day, the rioters did
nothing when a majority of the mills
they had closed by their violence re-
sumed work.

The police are under orders to shoot
straight if they should have another
encounter with the rioters and the
mayor has had copies of the riot act
distributed.

FEARED THE RIOTERS.

Silk Mills Outside of Paterson, N. J.,
Shut Down Indefinitely.

New York, June 20.—All but three
of the silk mills in Hudson county, N. J.,
have closed down. About 10,000
hands are, in consequence, out of
employment and within 24 hours the num-
ber will likely reach 13,000. The im-
mediate cause of the shutting down of
the mills was the dyers' strike in Pa-
tersen. The majority of the propri-
etors of the silk manufacturing estab-
lishments in Hudson, fearing an out-
break of similar trouble, decided as
the result of a conference to close
down indefinitely.

The expected trouble came late in
the afternoon when a mob of 500 men
and women gathered at Simons' mill
in Union Hill. Police Captain Knight
and his five men and a few citizens
kept the mob in check until the fire
department was called out. The fire-
men turned eight streams of water on
the crowd and scattered it. Seventeen
persons were injured.

UNITY THE KEYNOTE.

Great Gathering of Democrats at Til-
den Club Opening.

New York, June 20.—Democratic
unity was the keynote of a great gath-
ering of representative Democrats who
had come to attend the opening of the
handsome new quarters of the Tilden
club. Addresses were made by promi-
nent Democrats and afterwards a col-
lation was served in the banquet hall
to the distinguished guests of the
evening and a buffet supper was served
in the basement for the rank and file.
To Democrats the event was one of
the most memorable for many a day,
as Grover Cleveland and David B. Hill
met in harmony, seeking to draw the
factions of their party together. It
was the first public political appear-
ance of the ex-president in five years.
He spoke first, ex-Senator Hill spoke
after him, and then Governor A. J.
Montague of Virginia and Colonel W.
A. Gaston of Boston delivered address-
es. William J. Bryan had been in-
vited to attend, though not to speak,
but no reply was received from him.

Fears British Designs.

London, June 20.—The correspond-
ent of the Daily Mail at Gibraltar says
the Spanish authorities are expecting
a visit from General Weyler, the Span-
ish minister of war, whose object is
to inspect, with a view of strengthen-
ing them, the existing defenses and
the erection of new forts within a
twelve-mile radius of Gibraltar. This
action is said to be due to fears that
the government of Great Britain con-
templates the seizure of the hinterland
at Gibraltar.

Bought Mesaba Iron Lands.

Pittsburg, June 20.—Announcement
was made here that the Union Steel
company had made an additional pur-
chase of iron ore lands in the Mesaba
range of the Lake Superior region. It
is said the amount of the invest-
ment in ore property will be in excess
of \$1,000,000.

DELEGATES MARCH OUT.

Split Occurs in the Vermont Repub-
lican Convention.

Montpelier, Vt., June 20.—Amid
scenes of marked disorder and turbu-
lence the Republican state convention
nominated General J. G. McCullough
of Bennington for governor on the
third ballot, a body of delegates sup-
porting Percival W. Clement of Rut-
land marching out of the hall as a
protest against the action of the ma-
jority. The bolting delegates later,
at an impromptu open air demonstra-
tion, nominated Mr. Clement for gov-
ernor on an independent ticket, but
later developments indicated that high
license men would devote some time
to a consideration of the political out-
look before placing an independent
ticket in the field. Mr. Clement him-
self advised his followers to go home
and think it over before taking any
hasty action.

PATRICK M'HUGH'S CASE.

British House of Commons Will In-
quire Into It.

London, June 20.—The house of
commons spent nearly all night up to
midnight in discussing the case of the
Irish member, Patrick A. M'Hugh,
who was committed to jail for three
months for contempt of the special
court which assembled at Sligo, Ire-
land, June 6, under the crimes act,
and a number of bitter denunciations
of this act were made from the Irish
benches. A. J. Balfour, the govern-
ment leader in the house, finally
agreed to appoint the committee which
it is customary to nominate in the
case of the arrest of a member of the
house of commons to inquire into the
facts of Mr. M'Hugh's apprehension
and report them to the house.

GET LIFE IMPRISONMENT.

Two Italians Convicted of Murdering
a Fellow Countryman.

Chicago, June 20.—Felippo Rini and
Dominick Bismonte, young Italians,
have been convicted of the murder of
Antonio Natali and their punishment
was fixed at imprisonment for life.
Natali's body, almost hacked to pieces,
was found in a barrel Nov. 5 last on
the prairie at Chicago and Western
avenues. With Bismonte and several
fellow countrymen the dead man had
worked all summer as a section hand
on a railroad near Warsaw, Wis., and
came to Chicago with about \$2,000 on
his way back to Sicily, where he was
to marry his sweetheart.

Ties Up Building Operations.

Newcastle, Pa., June 20.—A general
strike of the building trades unions
of this city was inaugurated here in
sympathy with the journeymen plum-
bers, who are demanding an increase
from \$3 to \$3.50 for an eight-hour day.
This will mean a practical tieup of all
building operations until the strike is
settled.

TELEGRAPHIC BREVITIES.

King Albert of Saxony is dead.
The total cost of the Philippine war
up to date is \$170,326,586.

The University of Michigan has
conferred the degree of LL. D. upon
President W. H. H. Beadle of the state
normal school at Madison, S. D.

It is again officially denied that
the Portuguese government contemplates
the cession or lease of any portion of
Mozambique, Portuguese East Africa,
to Great Britain.

16@22c.

CROWNING OF EDWARD

Description of Chair England's
King Will Sit On.

NEARLY SEVEN FEET IN HEIGHT.

Made by Order of Edward I. to Hold
the Stone of Destiny on Which
Scotland's Sovereigns Used to Sit
When Crowned—Legends About the
Stone—Chair is Made of Solid Oak.

The coronation chair on which the
sovereigns of England sit when they
are crowned and which will be used
by the present king is often called St.
Edward's chair out of respect to the
Confessor, near whose shrine in West-
minster abbey it usually stands, says
the New York World. It was made
by order of Edward I. to hold the
coronation stone, or stone of destiny,
on which the Scottish kings used to
sit when they were crowned and which
stone Edward I. captured and sent to
Westminster in the year 1296. The
chair is made of solid oak, the parts
being pinned together, and is still
firm and sound, though much disfig-
ured by wanton mutilations as well as
by the hand of time. The whole chair
was originally gilded and covered with
ornamental work, much of which may
yet be distinguished upon a close in-
spection. At each coronation it is cov-
ered with cloth of gold or tissue and is
disfigured with the nails, tacks and
brass pins that have been used to
fasten the coverings.

The chair's dimensions are as fol-
lows: Entire height, 6 feet 9 inches;
breadth at the bottom, 3 feet 2 inches;
width at the bottom, 2 feet; breadth of
the seat, 2 feet 5 inches; depth of the
seat, 1 foot 6 inches.

At the coronation ceremony the chair
is brought out of St. Edward's chapel
and placed before the altar in the east-
ern limb of the abbey church. Except
Mary I., who was crowned in a chair
that was sent to England by the pope,
all the sovereigns of England, begin-
ning with Edward III., have sat in this
chair at their coronations. On the oc-
casion of the installation of Oliver
Cromwell the chair was brought into
Westminster hall, and this was the
only time it ever left the abbey since
it was made by Master Walter in or
about the year 1297.

The chair owes its importance to the
stone called the stone of destiny,
which it was made to preserve and
which rests under its seat on a kind
of middle frame supported by four
crouching lions on a bottom frame or
plinth. This stone was placed in the
abbey of Scone, in the county of Perth,
in the year 850 by King Kenneth, who
is said to have caused to be inscribed
on it in Gaelic an ancient prophecy to
this effect:

If fate speak sooth, where'er this stone is
found
The Scots shall monarchs of that realm be
crown'd.

A prophecy to this effect was un-
doubtedly extant long before the time
of King Kenneth, and the belief in it
is said to have reconciled many Scot-
tish people to the union of Scotland
and England. The kings of Scotland
were unquestionably crowned for
some centuries while sitting on this
stone in the abbey of Scone. But
whence did it come originally?

According to one account, it is the
identical stone upon which the patri-
arch Jacob laid his head on the plains
of Luz when he had the vision of the
angels ascending and descending the
ladder that reached to heaven. Some
say that it found its way from the
land of Luz to Egypt, that from
Egypt it was taken to Spain by Ge-
thulius, the son of Cecrops, a wild
young man who, having been banished
to Egypt from Athens by his father,
married Scota (hence the words Scot-
land and Scottish), the daughter of
Pharaoh, and fled from the plagues
with her from Spain, they taking the
stone with them. From Spain it was
taken to Ireland and thence to Scot-
land by their descendants.

Others say that from the plains of
Luz it was taken to the temple of Jeru-
salem, thence to the shores of Asia
Minor and thence direct by sea to Ire-
land. The earliest documentary allu-
sion to the stone as having been that
used as a pillow by Jacob occurs in a
work called "Processus Baldredi Con-
tra Figmentum Regis Anglie," which
was compiled in 1301.

Another legend says that it was taken
to Ireland from Denmark by the
Tuatha De Danaans, an ancient Irish
people. The Irish historians deny that
the lia fail (stone of destiny) on which
the Irish kings were crowned has ever
left Ireland and maintain that it still
stands proudly at the head of the re-
bels' grave on Tara hill.

The geologists rudely say that the
stone is certainly of Scottish origin
and that it was probably quarried
there a good many hundred years ago.

A War Memorial at Cape Town.

The archbishops of Canterbury,
York, Armagh and Dublin and the
primus of Scotland have expressed
their approval of the proposal to erect
the eastern portion of the new Cape
Town cathedral as a memorial of the
war and to preserve therein the names
of all who have been killed in action
or died of wounds or disease since the
war began, no matter to what denom-
ination they may have belonged, says
the London Telegraph. The lists,
which are being compiled from official
returns, will include not only soldiers,
but also all civilians in receipt of war
office pay, and will be arranged by
units, each list to be placed in the part
of the building allocated to that por-
tion of the empire represented by the
unit. The cost of the memorial will
be about \$175,000, toward which about
\$60,000 has been subscribed.

WANTS.

WANTED—A good girl for general
housework. Inquire at 907 Holly St.

WANTED—A good woman cook.
Inquire of Mrs. Swanson, Swanson
Hotel. 13-1f

FOR SALE—House and barn at 917,
Main street.

LOST—Pocket book containing cer-
tificate of deposit. Finder will be
liberally rewarded by returning same
to this office.

One front room to rent, centrally
located, 404 5th street south. 16-w1

The Queen Bee.

She possesses the power of choosing
which of her offspring shall be drones
and which workers. Some have
thought that this was automatic and
that the narrower worker cell touched
the button, so to speak, that brought
forth a fertilized egg. But the queen
will lay worker eggs in drone cells if
she thinks fit, so that settles that.

If the drone is male and the queen
female, what is the worker? The new
woman of Beedon. She has given up
her motherhood for a business career.
Sometimes, though, she lays eggs, but
they always hatch out drones, of which
it is strictly true to say they have a
mother, but no father. If the queen's
wings are crippled so that she cannot
make her marriage flight, her children
are all drones. An Italian queen in
a hive of black bees will begot work-
ers of mixed blood, but her sons are
pure Italians. Drones are useful as
fathers of workers, but they cannot col-
lect the honey they eat. Their tongues
are too short.—Ainslee's.

POISONS OF THE BLOOD

Must be Treated Internally
So Treated Only

You may have just recently contracted
Blood Poison, or its lingering taint you may
have had for years. It is safe to say that
you are not cured. You know that you are
not. The old symptoms and troubles return
every now and then. These are sores in
your mouth, sores on your tongue, your hair
is falling out, there are copper colored spots
on your back and shoulders, nodules on your
skin bones, sharp, cutting pains in your
joints. There is only one positively guaran-
teed cure in the world today for blood poi-
son, in any stage, and that MEDERINE. It
searches out the impurities, cleanses and
purifies the system, strengthens and invigor-
ates the whole constitution. MEDERINE
is not only a powerful blood purifier but a
system builder. It eliminates every trace
of the poisonous virus, clears and beautifies
the complexion and renders the skin soft and
velvety. We have thousands of testimonials
from people in all walks of life, who have
been cured by MEDERINE after trying all
other treatments. Write MEDERINE REM-
EDY CO., West Superior, Wis., for their
system of treatment. All letters answered.
